

OLDFIELD FORGE LTD

WELCOME TO OLDFIELD FORGE

With our attention to detail and dedication to excellence, we produce the finest quality ironwork for both modern and traditional homes.

Here at Oldfield Forge, we approach every project as an opportunity to create something unique and tailored to each individual client's needs. We are a specialist traditional blacksmith company providing the highest attention to design, detail and craftsmanship, keeping alive a long heritage of unrivalled British expertise.

A selection of our practical and artistic ironwork is displayed in our showroom in Herefordshire, and we welcome visitors to view the collection. We also offer tours of the workshop, so you can see first-hand the care and detail we apply to all our bespoke hand-crafted ironwork. We also invite you to join us for a cup of tea in our home where we hope the beauty of the ironwork will inspire you to be creative and innovative with your own space.

However, if this is not feasible, then our website offers a glimpse of the various ranges of ironwork we offer.

“

*Combining original
contemporary
design with ancient
blacksmithing techniques,
Oldfield Forge Ltd can
work to commission,
forging high quality,
bespoke ironwork*

”

ABOUT US

Established for some 13 years, Oldfield Forge Ltd. is a traditional family-run blacksmithing business set in the very heart of rural Herefordshire. It was founded by the two of us, husband and wife team, Aaron and Nicky Heath. Aaron is the head blacksmith whilst Nicky is the business manager. Between us and our small band of talented blacksmiths we like to think that we have built a strong and highly respected organisation with a reputation for producing ironwork of the very highest quality and featuring outstanding design and craftsmanship.

Possessed of a natural aptitude for this type of work Aaron has dedicated his adult life to the art of the traditional blacksmith, continually pushing and establishing new boundaries in metalwork. However as well as creating the more contemporary pieces he also has a deep interest in the conservation of heritage ironwork and his knowledge and experience in this field has enabled him to work alongside some of the country's leading architects, designers, specialist contractors and conservation experts on projects for organisations such as National Trust, English Heritage and Cadw. These have involved many historic, ecclesiastic and other similarly prestigious properties.

Nicky is the business organiser and developer. She has responsibility for sales, purchasing, marketing and setting the weekly staff work schedules as well as dealing with the multitude of other vital day to day duties that are essential to the running of a successful company. She has a real flair for interior design and takes a leading role in creating and developing new product ranges. Nicky was also the driving force behind the setting up of Oldfield Forge Academy which, along with the Forge itself, has gone from strength to strength under her guidance and supervision.

Both of us are devoted to working alongside our team and our customers to ensure that Oldfield Forge Ltd. continues to provide only the very highest standards of service, design and, of course, end product.

We are here to transform your ideas and your dreams into reality. Please do not hesitate to contact us with any queries you might have or for help and advice. As well as what you see in this catalogue we will be pleased to undertake commissions of all shapes and sizes and can offer a complete service including design and installation. We will (within a reasonable radius of the forge) be happy to visit you at your home to take measurements and provide professional advice and guidance.

ORDER INFORMATION 120 |

A close-up photograph of a wooden door. The door is made of light-colored wood with vertical grain. A dark metal track is mounted horizontally across the door. A metal handle, possibly brass or bronze, is visible on the left side. The handle has a curved, cylindrical shape. The background is slightly blurred, showing more of the door's structure.

01 DOOR FURNITURE

Bespoke bolt

BOLTS

To ensure your order is dealt with as quickly as possible, please specify the product code of the item you would like to order and where applicable, your particular specifications, such as measurements and placement.

Our sliding bolts are available with either staple or escutcheon receivers. Please let us know which you require.

To order from the standard range simply quote the product code, quantity and finish. As all our ironwork is handmade, we can adapt our standard range to your needs.

1. Shepherd's Crook Sliding Bolt

7.5cm - BSHC001
15cm - BSHC002
20cm - BSHC003

2. Monkey Tail Sliding Bolt

7.5cm - BMT001
15cm - BMT002
20cm - BMT003

3. Flicked Scroll Sliding Bolt

7.5cm - BFS001
15cm - BFS002
20cm - BFS003

4. Scroll End Sliding Bolt

7.5cm - BSCE001
15cm - BSCE002
20cm - BSCE003

5. Square Button End Sliding Bolt

7.5cm - BB001
15cm - BB002
20cm - BB003

6. Square Universal Swan Neck Sliding Bolt

7.5cm - BSQB001
12cm - BSQB002
17cm - BSQB003

We pay precise attention to detail and all of our bespoke ironwork can be made suitable for all situations and dimensions. Our handmade bolts have been carefully designed allowing, for instance, swan neck bolts to be held in the up or down position with a positive fix. Unlike imported bolts, which rely on a spring mechanism, and as such cannot provide total security, our bolts offer the peace of mind of a secure fixture.

1. Shepherd's Crook (20cm)

1. Shepherd's Crook (15cm)

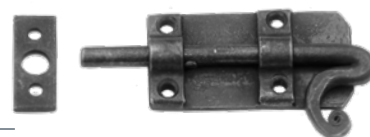

2. Monkey Tail (15cm)

2. Monkey Tail (7.5cm) with receiver

3. Flicked Scroll (7.5cm) with escutcheon

4. Scroll End

5. Square Button End

6. Square Swan Neck (7.5cm)

6. Square Swan Neck (12cm)

DOOR HANDLES

We also now offer sprung door handles. The mechanism works by returning the lever back to its natural horizontal position after depression. In contrast, an un-sprung door handle operates on the reliance of the door lock spring to return to its natural position. If you are unsure which mechanism works best for you, please contact us so we can assist you in your choice.

BELLS

Our hand-crafted artistic bells can be hung outside as doorbells, or simply situated within the home as decoration. We can forge various designs for the hanging mechanism, meaning you can design your bell to fit in with the personality of your home. Bells are a gorgeous addition to both modern and traditional homes, and will offer your décor a unique aesthetic appeal.

KITCHEN ACCESSORIES

Kitchen accessories can add the finishing touches to your home, in both an aesthetic and practical sense. Whilst the most obvious kitchen décor decisions usually involve cupboards, appliances and flooring, it is nevertheless surprising how often the smaller accessories can make work in the kitchen easier and more enjoyable.

We have a wide range of ironwork accessories, from coasters to mug trees, and cook book stands. We also create larger items such as wall-mounted pot hangers. These items make perfect gifts for the food-lover in your life, and some of them can even be personalised with initials or messages.

Ribbon Wall Mounted Pot Hanger

Organic Cook Book Stand

Chopping Board

To ensure our pieces fit your home, please specify your sizes when you order.....

Bespoke Wall Mounted Pot
Hanger

Autumn Spoon Holder -

10 STAIRS & RAILINGS

Bespoke Bead Detailed Balustrade

Every staircase and handrail we create is totally bespoke. This ensures it is designed to fit perfectly into your home.

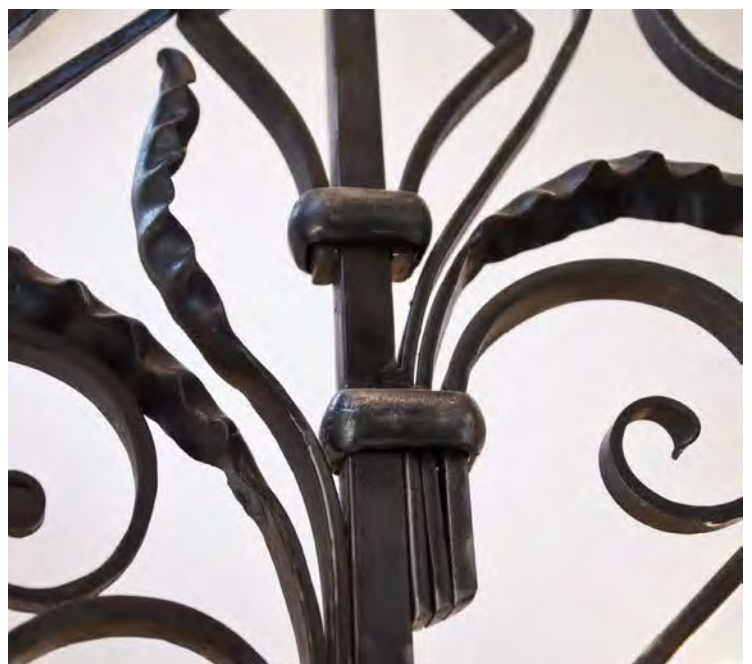

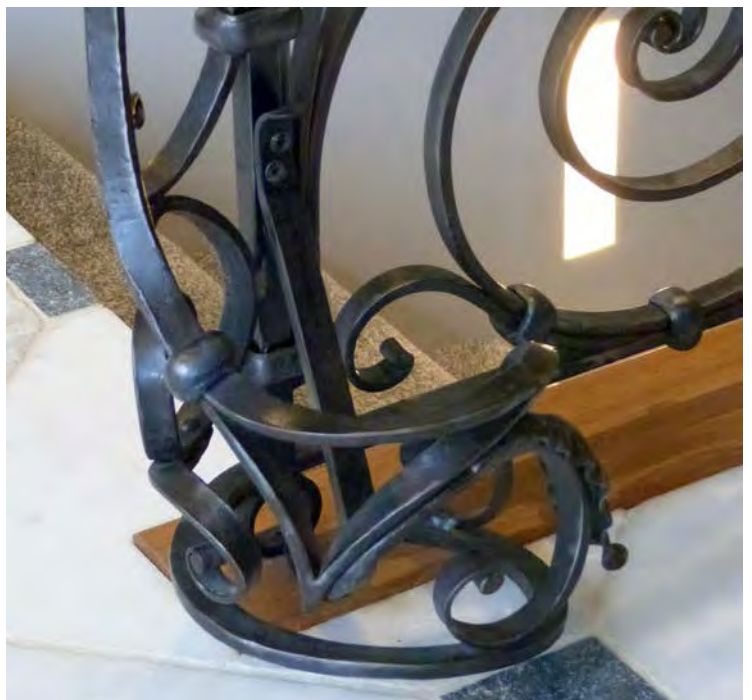

Hammered Spindles

COTSWOLDS STAIRCASE

This piece was commissioned for a beautiful home in the Cotswolds. We worked with the customer from design through to installation, and this inspirational pattern was echoed throughout the rest of the interior of the house. A mix of intricate ironwork and stunning natural wood banisters created a completely unique statement staircase, which beautifully enriched the existing interior. The delicate pattern forged in iron provides a stunning contrast to the light and airy house, bringing a sense of solidity and artistry to our customer's home.

11 GATES

Oak Leaf Garden Gate

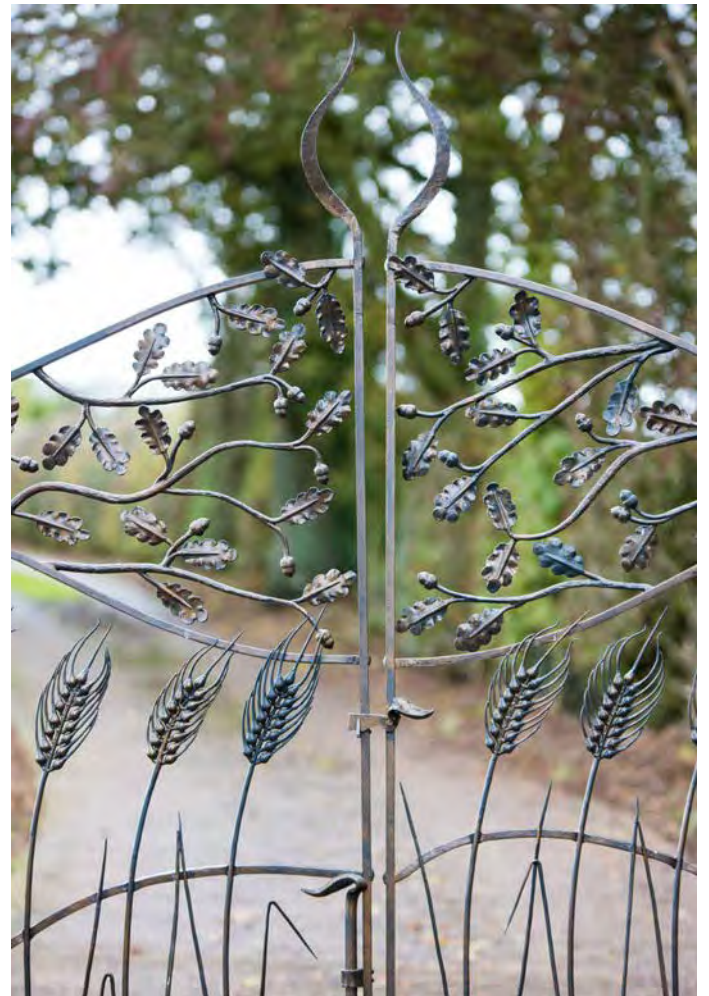

Left - Oak Leaf Garden Gate
Above - Organic Fleur de Lys Garden Gate

Gates, railings and balconies create that all-important first impression when arriving at a property, and a hand-forged entrance will immediately establish a stylish ambience for your home. Our exterior pieces are designed to be both beautiful and secure and to provide you with privacy. You can commission a bespoke gate, railing or balcony, meaning that you will have an entirely unique piece that perfectly suits your property's aesthetic charm.

We can also provide a full gate automation and installation service to suit any situation. If you would like more information about commissioning a piece, please do get in touch.

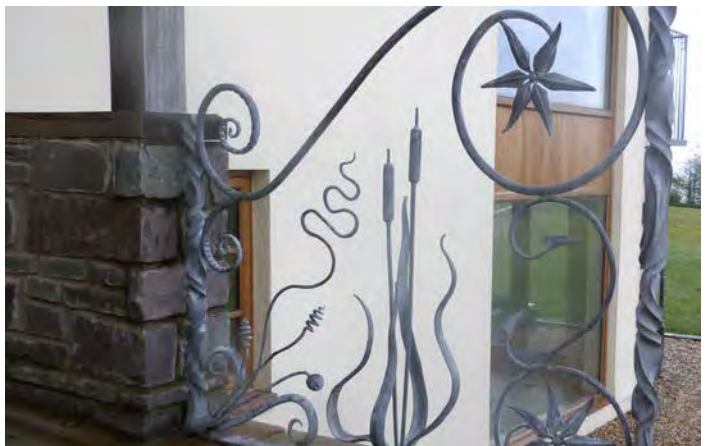

Above - Handmade Gates with Traditional Joining Methods

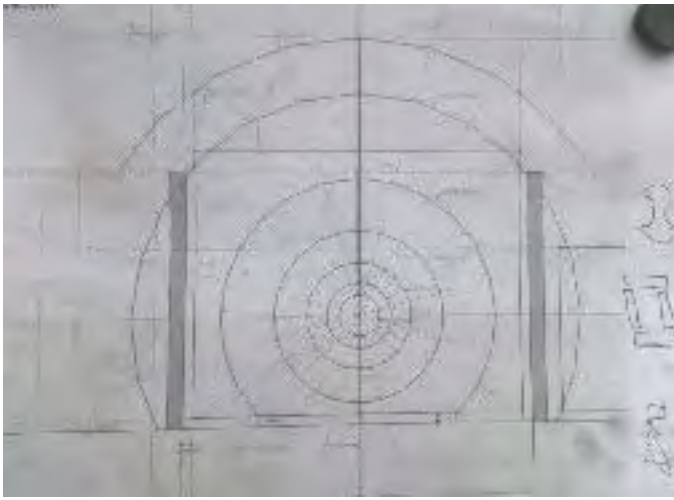

CHELSEA SHOW GATES

We are very proud to have had the honour and privilege of working with Oak Leaf Gates to help celebrate the iconic RHS Chelsea Flower Show reaching its 100th anniversary. We produced these beautiful statement gates in honour of the show, with an intricate vine pattern hand-forged in iron. The delicate nature-themed ironwork perfectly compliments the stunning surroundings, and certainly invokes the tradition and beauty of the famous RHS Chelsea Flower Show.

A close-up photograph of a large, dark metal hinge mounted on a wooden door. The hinge is made of heavy, dark metal and is secured with several large bolts. The door is made of light-colored wood with vertical planks. To the right of the door is a rough, textured stone wall. The lighting is dramatic, highlighting the textures of the wood, metal, and stone.

Hinges for the heaviest
door in Europe

RESTORATION & HERITAGE

RESTORATION & HERITAGE

The craftsmanship involved in traditional period ironwork is a great passion for us here at Oldfield Forge and we work alongside many historic and conservation organisations in order to help restore heritage pieces. We specialise in all aspects of restoration and conservation of traditional and historic ironwork. We have developed a formal relationship system to ensure that our work within the forge is carried out to the highest ethical standards of the blacksmithing profession. Head blacksmith, Aaron Heath, and our small team of experienced blacksmiths are extremely conscious of the considerable responsibility placed upon them when restoring and preserving important heritage ironwork. We work on the basis that the best conservation practice is to retain as much of the original material as possible and that, if viable, any necessary interventions should be reversible.

We view the conservation and restoration of historic ironwork as an essential contribution to the protection of our British heritage. Our aim (where appropriate) is to return the item to its original condition using minimal intervention in order to restore the history and heritage of the ironwork. We provide a comprehensive assessment as to the condition of the piece and recommend the best practice for its conservation and restoration. We can recreate missing elements of the original whilst in other cases we use our skills and experience in ironwork reproduction to craft a new piece sympathetic to the style of the building of which it is a part.

Our aim is to:-

- Retain as much of the existing material as possible using innovative methodologies
- Where possible to repair sympathetically - rather than renewing
- Use where possible traditional techniques and materials
- Compile images of the artefact before, during and after conservation work through the medium of drawings and photographs in order to provide a documented long-term record of the stages of the restoration project.
- Ensure our restoration practice is to the highest quality and, where practical, consistent with the original techniques employed.
- Provide a consultancy which will help you decide upon the best and most sympathetic approach to every project, including best practice methods and the processes of dismantling and re-installation.

Westminster Abbey: The Queen's Diamond Jubilee Galleries

"An architectural masterpiece of the 13th to 16th centuries, Westminster Abbey also presents a unique pageant of British history – the shrine of St Edward the Confessor, the tombs of kings and queens, and countless memorials to the famous and the great. It has been the setting for every Coronation since 1066 and for numerous other royal occasions, including sixteen royal weddings."

We have recently carried out an intensive conservation programme on the Westminster Abbey Queen's Diamond Jubilee Galleries. Our work included the forging of new but traditionally-styled door furniture consistent with the heritage of this very special historic building.

SHOP SIGNAGE AND FITTINGS

The frontage of your property creates the important first impression of your business. A distinctive and stylish sign can be the essential element in attracting customers.

Our made-to-measure shop signs are created as one-off pieces to perfectly complement your business and to ensure that not only the frontage is in-keeping with your vision, but that all signage throughout the property is also enduring and stylish. We can also create directional and informative signs or indeed any other requirement. Please contact us for further details on commissioning your signs.

Bespoke Signage at The Cookshop

Make your business stand out with our stunning bespoke shop fittings. Our unique creations will turn your dream shop interior into reality. The addition of hand-forged ironwork detail into your shop furniture will add a sense of style and individuality that will make your business unforgettable. If you would like more information on commissioning shop fittings, please do get in touch and we will help you bring your ideas to life.

FINISHES

Ku-Rust

This finish enhances the darkness of the steel and displays the beauty and quality of the hand-crafted ironwork to full effect. It gives a more natural look and feel than painting. This is a beautiful finish for interior pieces. However we do not recommend this finish for exterior use.

Linseed Oil

A traditional finish dating back to the 18th century, linseed is used to preserve ironwork and is proven to be slightly more durable than traditional beeswax. We would only recommend this finish for interior use as regular maintenance would be required for external pieces. This finish has similar characteristics to a beeswax finish but with a more lustrous and clear appearance.

Beeswax

To create this finish the completed ironwork is heated in the fire and individually dipped into a hot liquid beeswax mixture. This is a traditional finish, recommended mainly for interior use, as exterior use requires the regular reapplication of wax. The finish is aesthetically pleasing to the eye, allowing the ironwork to showcase its natural appearance.

Antique Aged

This finish offers a rustic aesthetic effect and can help bring a stylish industrial feel to any piece. A rust finish is suitable for both interior and exterior use and is sealed with linseed oil or renaissance wax to retain the effect and prevent further rusting.

Galvanised & Acid Etched

We recommend that all exterior ironwork be galvanised as this protects the items from weathering and is virtually maintenance-free. Galvanising provides a high-lustre appearance. We also offer the option for the product to be acid-etched. This additional etching gives the ironwork a more natural, less lustrous look.

Painted

This popular and durable finish is suitable for both interior and exterior use. We offer a range of paint choices and can help you choose the one that is right for you. Please contact us for more information.

Grate Polish

Suitable as a heat-proof natural finish and mainly used for fireside accessories. A grate polish will provide your ironwork pieces with a slight sheen and will ensure their protection throughout usage.

Wire Brushed & Lacquered

This option is brushed to a gunmetal style finish before being sealed with matt lacquer. This finish is suitable for interior use only.

Pewter

This metallic paint is a high quality, solvent-borne, metal-pigmented paint. It has enjoyed a reputation as the finest metal paint available since its establishment in 1972. The fast-drying formulation enables the system to be applied quickly with minimum disruption and provides an excellent alternative to traditional methods. It also has a unique and classical gilt finish, with a range of metallic colours available. It is suitable for both indoor and outdoor use. If you are unsure as to whether this finish is suitable for your product please do contact us for advice.

Oldfield Forge Academy

Oldfield Forge Academy was born in 2013 when we decided that we would like to pass on our skills and show you how it feels to be a traditional blacksmith. Originally offering courses to school children, we soon began to realise that it wasn't just the kids who wanted to have a go!

What we offer

We offer a series of fun packages designed for families, friends and couples as well as stag / hen parties, corporate team-building and vocational courses. With all our packages we also offer our picnic facilities and the use of our Scandinavian Lodge and Shepherd's Hut, both sited in the Oldfield Forge wood so that you can really enjoy the pleasure of being in our beautiful Herefordshire countryside.

All our packages are available as a voucher which you can purchase for that special occasion. Please visit our website for further information - remember to keep an eye out for new packages being released!

At Oldfield Forge we believe in working with other local businesses in order to offer you even more for your day out at the Academy. If you would like to extend your visit and enjoy another activity we can help you arrange extra treats such as tours at our local beer, cider and wine producers. Alternatively, you might like to start or finish your day by paddling your own canoe, or try your hand at other outdoor pursuits. We can also help you source or arrange local accommodation.

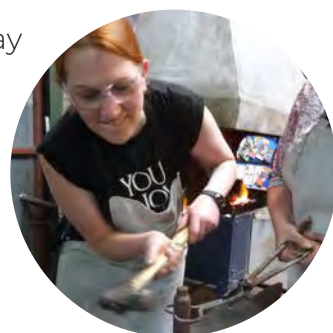

Couple's Day Date

Why not treat yourselves to a day off and come to the Academy for the ultimate date? We will teach you how to make a piece of bespoke ironwork. You can either work together to make something for the home, or compete to see which one is the best blacksmith. We have found the ladies to be as good as the gents! This package is also ideal for a stress-free first date. The day is promised to bring lots of laughter and fun, also making the perfect way to mark and celebrate your anniversary!

Just for Fun

Take a break from the hustle and bustle of your busy life with a day of forging at the Academy. Our 'Just For Fun' package is one to be ticked off your bucket list! You can enjoy three or five hours of blacksmithing with a fully trained and experienced member of our team. Take away a beautifully crafted piece of ironwork, created by your own hands. After your time in the forge, why not unwind even further in our wooded grounds and enjoy our homemade picnic lunches. Alternatively, head down to the local pub for a drink and lunch or an evening meal.

Forging & Tasting

You can join us for three hours of forging, followed by a tour of Hillside Brewery, Westons Cider or White Castle Vineyards. During your time with us we will help you make a bottle opener or cork screw to aid you in your tour experience. Three hours of forging following by a tour at your choice of venue. During your time with us you can also enjoy one of our picnic lunches. Set in our beautiful wooded grounds we also have a Shepherd's Hut and a Scandinavian Lodge with a wood burning stove!

Wedding Rings

The most important part of any wedding is when the couple make their vows, sealed by the exchange of rings. Think how much more significant that moment would be if you exchanged rings that you actually made yourselves. Come to the Academy for a day and our expert blacksmiths will help you create the rings that will make your wedding so special. During your time with us you can celebrate the occasion with the added option of a picnic lunch in our Scandinavian Lodge or our Shepherd's Hut. We also offer the option of plating your rings in Chrome, Silver or Gold.

Stag & Hen Parties

If you're looking to do something different for your stag or hen party, a day at the Academy is ideal. We tailor the event to suit each party's requirements, ensuring we cater for all tastes! The day is full of laughter and fun from the minute you enter the forge. You could each make a keepsake as a lasting memento of your friendship and the forthcoming wedding or join together as a team to make a decorative sword. If you want to make a weekend of it we can help you find suitable accommodation for couples or groups in beautiful nearby self-catering cottages or B&B's. If you are looking for a way to round off the day we can recommend many entertaining activities including local beer / cider / wine tasting, a spot of clay shooting or paintballing in the countryside. For more information please get in touch.

Teambuilding

If you feel that your business would benefit from a spot of team-building, a day at the Academy could be just the answer. We have designed this amazing team package with the aim of bringing everyone together. Enjoy designing and making a bespoke piece for the office or compete to be the best blacksmith - with a keepsake to take away! Your team will have a challenging physical and mental task to tackle which will require them to work together and encourage them to bond naturally and instinctively. It will also teach them a discipline that is probably quite different from their normal employment role. Participants will learn new skills and create a lasting memory!

Bespoke Packages

It's not easy to keep coming up with something different for a memorable way to mark a special occasion or for a family or friendship day out. So you can feel triumphant when you offer a day at The Academy, where guests can enjoy the experience of learning to use a forge and either create individual items or work together on one bespoke piece. The day is also suitable for children (8 years and above). If they are not tired out after their forging experience, the children can enjoy our play area with a tyre swing, zip wire, picnic benches and wild flowers – the sheepdogs might come out to play too! Let us know what occasion you wish to celebrate and we'll make that day special for you.

ORDER INFORMATION

ORDER / AVAILABILITY

Ordering couldn't be easier. You can place an order by post, telephone, email or in person at our showroom situated in the beautiful countryside of Garway Hill in Herefordshire. All our products are bespoke and consequently delivery times can vary considerably. If your items are from our standard collection and are in stock then they will be delivered within 14 working days. However, if your products are being made to order, then due to the nature of our work, please allow up to six weeks for delivery. Rest assured that we will work to the best of our ability to meet your specific deadline.

DELIVERY

We offer a delivery service direct to your door. Alternatively, customers are more than welcome to collect their ironwork in person and take the opportunity to browse our showroom.

OPENING TIMES

Our friendly and knowledgeable staff are available to speak to you from 8am–5pm Monday to Friday and are available by appointment on Saturdays, Sundays and Bank Holidays.

VOUCHERS

For birthdays, weddings, anniversaries, or indeed any special occasion, an Oldfield Forge Ltd voucher can be a truly unique gift. Vouchers are also available for our blacksmithing courses so that you can gift a unique experience that will never be forgotten. Please contact us for more information.
